

EASTI DAMAYANTI

UI/UX | Project Management | Data Analysis | Full-Stack Developer | AI Engineer
Indramayu, West Java Province | Email: <mailto:eastidmyt@gmail.com> | [portfolio easti damayanti](#)

SUMMARY

Software Engineering Graduate with hands-on experience in UI/UX design, full-stack development, project management, and quality assurance. Proven ability to contribute to end-to-end digital products, collaborate with teams, and translate user needs into intuitive and functional interfaces. Experienced with Agile workflows, Figma and design systems, web development technologies, and data management. Seeking opportunities in UI/UX Design, Project Management, Frontend Development, Quality Assurance, Data Analysis, or other related IT roles.

WORK EXPERIENCE

Operations & Data Management Coordinator – Full Time

At Yayasan Barokah Tin Kartini (December 2025 – Present)

- Served as the PIC for a branch operation, coordinating daily activities, personnel, and facility requirements.
- Prepared daily operational reports using Excel and Word files to communicated updates to partnership coordinators.

Software Developer – Internship

CV Creative Gama Studio (July 2025 - December 2025)

- Built a POS web system (SIBengkel) end-to-end: designed user flow, database architecture, and operational workflow.
- Led a team of 8 members in migrating SIMDES website from PHP 8 to Laravel 12, normalizing 200+ database tables while improving layout consistency and UX.
- Implemented dual-role access control using Laravel Spatie package, reducing code redundancy.
- Created dynamic features for correspondence (Persuratan) and population data (Data Kependudukan) with real-time sync logic.
- Developed both public-facing and admin-side modules for letter submission with full synchronization.
- Produced software testing documentation to verify functional and usability requirements.
- Conducted daily reviews directly with company director.

UI/UX Designer – Freelance

Melati nusantara Website (July – August 2025)

- Translated client briefs and existing website content into consistent, user-centered UI/UX designs aligned with the established website flow and visual direction.

- Created wireframes and high-fidelity prototypes as a complete interactive demo and developer-ready reference for implementation.
- Structured extensive textual content into engaging layouts using visual hierarchy, typography, spacing, and intuitive content flow to improve readability and user experience.
- Extended existing website sections while maintaining consistency in design, content structure, navigation, and overall user experience.

Administrative Staff – Part-Time

PT. Arijona damai Sejahtera gas and retail agent (2022 – 2024)

- Supported daily operational administration tasks.
- Managed and organized distribution base data (pangkalan) using Excel.
- Gained practical understanding of maker and approver workflows in supply chain and procurement processes.

IT Support – Part-Time

PD. Putri Indrasari (2024 – 2025)

- Maintained and updated company landing page, monitoring performance and ensuring functionality.
- Designed promotional banners using Canva and Figma; managed publishing on social media and the website.
- Produced comprehensive product catalogs with accurate, visually appealing presentations.
- Built an automated Excel Invoice application handling sales, shipping, and invoicing eliminating a website subscription cost Rp 320,000/month.

PROJECT EXPERIENCE

PetaniTech Website – Website Developer

Administration System (September 2024 - December 2024)

- Collaborated with Backend Developers and System Analysts to define application concepts.
- Designed mockups, logos, and copywriting using Figma and Canva.
- Developed the frontend by slicing mockups into HTML and CSS.
- Enhanced interactivity with JavaScript.
- Built functional backend using POSTGRE SQL, PHP and Laravel Framework.

PetaniTech Mobile – Frontend Developer

Mobile Apps Flutter (September 2024 - December 2024)

- Created assets such as icons and app banners.
- Designed mobile mockups using Figma.
- Implemented frontend development using React JS, HTML, and CSS. Developed user-friendly interactive features with JavaScript.

PORTALGANK Website – UI UX Designer

KMIPN VI (June 2024 - July 2024)

- Designed application concepts and contributed to the project's success in reaching the top 15 in the competition.
- Created detailed user interfaces and website banners and vector using Figma.

AI Machine Translation Model – Developer

Undergraduate Thesis (June 2024 - July 2024)

- Contributed to a government-funded research project supported through BIMA (Basis Informasi Penelitian dan Pengabdian kepada Masyarakat) under the supervision of a university professor.
- Assisted in conducting literature reviews of recent international and Indonesian research related to research.
- Supported the development and preparation of a 50,000+ sentence parallel corpus for Indonesian–Indramayu language translation through OCR, AI-assisted generation, web-based data collection, and manual validation.
- Assisted in designing the research workflow, including dataset preparation, preprocessing, model training, and evaluation.
- Conducted experiments with AI-based language models and analyzed translation performance using automatic evaluation metrics.
- Contributed to research documentation, data analysis, and preparation of research outputs in accordance with the requirements of the BIMA-funded research project.

ACTIVITIES

IPEC Competition – Online

Participant in Speech Category (9th October 2024)

- Delivered a five-minute impromptu English speech with one hour of preparation time.

Candidate IISMA MBKM – Online

As Candidate Interview (January 2024 – February 2024)

- Prepared essays in English and advanced to the interview stage.
- Completed a full English interview in 25 minutes.

TOEIC ETS – Online

As Test Taker (12th January 2024)

- Completed the test within two hours and achieved a total score of 725.

NPEO Competition – Palembang

Participant in Speech Category (19th – 23rd June 2023)

- Delivered speeches on two themes in English.

Foreign Language Forum POLINDRA – Indramayu

As secretary (2023)

- Organized and arranged events, ensuring smooth execution and coordination.
- Managed administrative tasks, including handling correspondence, drafting official letters, and preparing event permission documents.
